Advance Praise for *A Beautiful Apocalypse*

"A Beautiful Apocalypse is a splendid presentation of Integral ideas in a novel form—a highly readable, engaging, and altogether fun novel. Give it a little time and see if you don't agree..."

Ken Wilber—An Integral Vision

"This is a book that attempts to express one of the most complex and important theories of existence, into a gripping and elegant story. It is a joy to read and a beautiful way to share my passion for knowledge with others in an exciting and accessible way."

Sean Wilkinson—Co-founder, CirclingEurope

"Truly an evocative, gripping tale of loss, triumph, success and wonder. With a rapid tempo and electrifying stakes, this story sheds light on the very real opportunity that we all face: grow up and wake up, or die. Read it for fun or read it for personal growth — just read it!"

Willow Dea—Igniting Brilliance

"You have a magnum opus here. You have done an amazing job of embracing the integral STORY."

Marilyn Hamilton, PhD—Integral City: Evolutionary Intelligences for the Human Hive

Terrific work! This is a gift to the integral community and beyond. The spiral really comes alive with such rich examples and story lines."

Adam Leonard—Integral Life Practice

"Proceeds at the pace of a roller coaster video game and shows how enlightenment can emerge from the wildest and grimmest situations! May be just what you need to prepare for the future; may be just what you need to inspire you to build a much better one!"

Elisabet Sahtouris—Evolution Biologist & Futurist, holder of WorldBusiness Academy Chair in Living Economies
